

Mini Crawlers

Used Mini Crawler Minnesota - We have designed various Mobile Crane Operation programs at our Crane Training Schools. These programs are recommended for the experienced operator who needs re-certification or certification, and for inexperienced operator who is searching for a job in the business. Crane operator positions are in demand because of their high rates of pay. Crane operators are amongst the highest paid of any heavy machine operator. Our Crane Operator training offers instruction for different mobile cranes. Course subject comprises Crane Set-up, Wire Rope, Lift Planning, Load Dynamics, Load Charts, Rigging, and Signaling. The Crane Training School program is best for supervisors, operators and riggers. Course materials include a manual and informative hand-outs. The safety instruction manual which is illustrated features one hundred to two hundred fifty pages, depending on the course, of useful and essential material. Course materials include load charts and load chart exercises for the crane with which the trainee is working. Hands-On Safety Training will take up over half of the course curriculum. The practical training part is the most effective method to developing and improving personal skill levels. Only certified journeyman crane instructors are selected to teach the courses. Our instructors possess numerous years of experience in the industry. For all the course we offer, we can include optional testing mechanisms to customize your training. A test for skills is usually administered for programs which include H.O.S.T. People training would be graded and tested. We provide certified training programs for the following cranes: Fixed and Swing Cab Mobile Hydraulic Cranes; Lattice Boom/Crawler Cranes; Articulated Boom/ Knuckleboom Cranes; Rigging / Signalperson Training and Certification; Testing & Certification; and In-The-Seat Training. Industry standards of practice are changing as new business requirements emerge. There are constant updates to legislation and regulations. Enhancements in technology and equipment continue to be made. Industry data collection and analysis detect trends which are changing. Members maintain the privilege of managing their certifications and training programs. Mobile device alerts keep members abreast of personal and workplace safety news.
